

# iTunes Built-in Settings

You can restrict explicit content from displaying in the iTunes Store. You can also disable podcasts, radio content, the iTunes Store, and shared music so that these items don't appear on the left side of the iTunes window.

## Setting iTunes Parental Controls

To set parental controls on your computer, follow these steps:

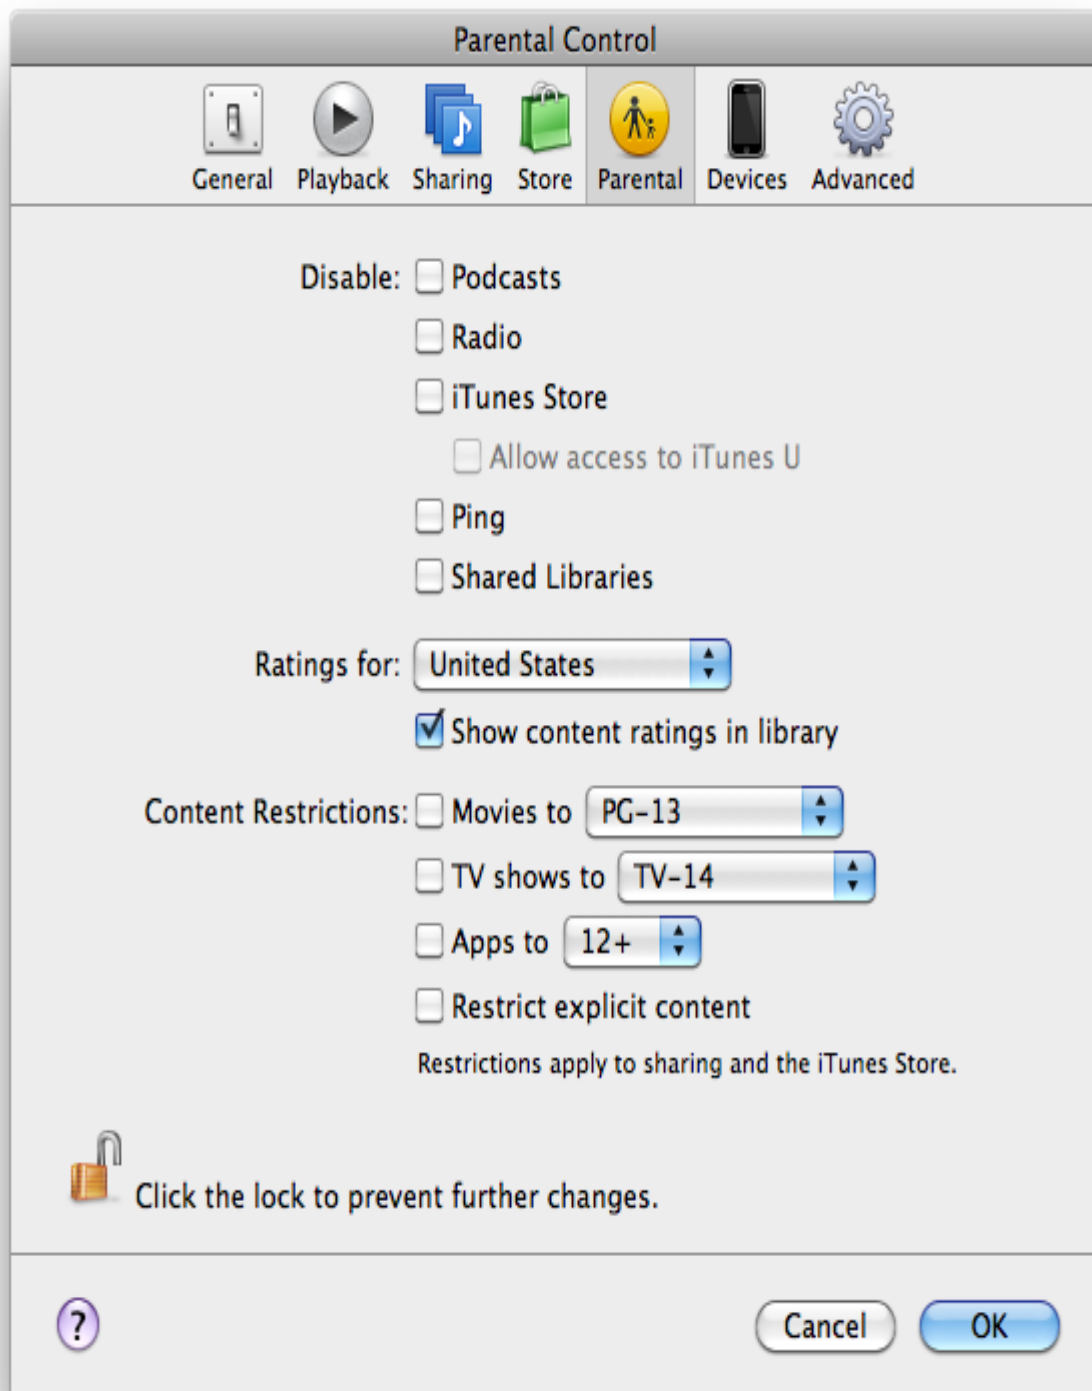

1. In iTunes, open iTunes preferences. Mac users: From the **iTunes** menu, choose **Preferences**. Windows users: On the **Edit** menu, click **Preferences**.
2. Click the Parental tab.
3. Select the checkbox next to any item you wish to disable or restrict.
4. iTunes 7.7 or later only: To change a rating level of TV Shows, Movies and Games choose a rating level from the pop-up menu.
5. Click the lock icon to prevent users from making changes.
6. Type your administrator password in the resulting dialog, then click OK (You'll need to know the administrator's account name and password).
7. Click OK to close iTunes preferences and have your changes take effect.

If you want to make changes to your restrictions, open iTunes preferences, click the Parental tab, click the lock icon, and enter your administrator password in the resulting dialog to unlock the parental controls. You can then make any desired changes.
